

MOTO-PREP SILICON DETAILING SPRAY

>>Description

Moto Prep Silicone Detailing Spray is a multi-purpose cleaner, polish and light lubricant that revives dull faded surfaces to a dry shiny finish. It is formulated for use on plastic, painted, fiberglass and metal surfaces providing a long lasting shine..

>>Features

- >Restores surfaces to shiny finish
- >For plastic, metal and painted surfaces
- >Repels dirt and dust build-up
- >Protects against corrosion

>>Application

Moto Prep is intended for many powersport applications and is excellent for displacing moisture and protecting against corrosion. Highly recommended for the underside of fenders, frame and engine to reduce dirt build-up and to help make clean-up easier

>>Directions

Shake can before use. After washing and drying vehicle, hold Moto Prep 4-6 inches away from surface and apply a light coating. Wait a few seconds to allow drying. Depending on the texture and shine of the surface you may choose to wipe down with a dry cloth or apply more product. Do not use on hand grips or seat surfaces. Make sure that there is no over spray on brakes. Use Torco Brake & Contact Cleaner to remove any possible overspray on brake components.
